X=None

% Control where E=Excellent 90-100%, G= Good 80-89%, F= Fair 65-79%, P= Poor <65%, N/A= Not applicable  
 \* Glyphosate will not provide control of glyphosate-resistant biotypes of these weeds. Source: Heap, I. The International Survey of Herbicide Resistant Weeds. Online. Internet. Tuesday, May 5, 2015. Available www.weedscience.org  
 \*\* Anticipated availability pending regulatory approvals  
 \*\*\* Dicamba has some residual up to 14 days, Balance Bean is a residual herbicide

## Roundup Ready PLUS® Crop Management Solutions

Follow this simple, proven herbicide application formula to help handle your tough-to-control weeds:

1. **Burndown** herbicide application or tillage prior to planting
2. **Pre-emergence** soil residual herbicide at planting i.e., Rowel™ Herbicide or Rowel™ FX Herbicide
3. **Post-emergence** soil residual and/or foliar active herbicide for weed escapes i.e., Warrant® Herbicide or Warrant® Ultra Herbicide

## Overarching Principles of Weed Control for Any System

- Identify the weed ... to select herbicide and manage application timing
- Go early ... spray weeds when they are small to keep them from robbing moisture and nutrients
- Start clean ... by using a pre plant herbicide and residual
- Manage your equipment ... check the settings, lower the boom, slow down, monitor the wind conditions, and use the correct nozzles

Roundup Ready 2 Xtend™ soybeans are not currently available for commercial sale or commercial planting. Dicamba herbicide is not currently approved for commercial in-crop use with Roundup Ready 2 Xtend soybeans and nothing herein is a promotion or an offer to sell dicamba herbicide for this use. It is a violation of federal law to promote or offer to sell an unregistered pesticide or a registered pesticide for an unregistered use. Commercialization is dependent on multiple factors, including successful conclusion of the regulatory process. This information is for educational purposes only and is not an offer to sell Roundup Xtend™, XtendiMax™, Bollgard II® XtendFlex™ or Roundup Ready 2 Xtend™. These products are not yet registered or approved for sale or use anywhere in the United States. Commercialization is dependent on multiple factors, including successful conclusion of the regulatory process. The information presented herein is provided for educational purposes only, and is not and shall not be construed as an offer to sell, or a recommendation to use, any unregistered pesticide for any purpose whatsoever. It is a violation of federal law to promote or offer to sell an unregistered pesticide.  
 Monsanto Company is a member of Excellence Through Stewardship® (ETS). Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.  
 Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible.  
 ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® brand agricultural herbicides. Roundup® brand agricultural herbicides will kill crops that are not tolerant to glyphosate. Rowel™ Herbicide, Rowel™ FX Herbicide, Warrant® Herbicide and Warrant® Ultra Herbicide are not registered in all states. Rowel™ Herbicide, Rowel™ FX Herbicide, Warrant® Herbicide and Warrant® Ultra Herbicide may be subject to use restrictions in some states. The distribution, sale, or use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. Check with your local Monsanto dealer or representative for the product registration status in your state.
