

Right From the Start, Help Maximize the Performance Potential of Genuity™ Roundup Ready 2 Yield® Soybeans

Acceleron™ • Soybean Seed Treatment System

Next Generation Seed Treatment System

Acceleron™ is an advanced seed treatment system designed for Genuity™ Roundup Ready 2 Yield® soybeans. This system optimizes soybean seed performance through enhanced plant health, disease protection and insect control.

PLANT HEALTH Improved Plant Health

Acceleron improves early plant growth and vigor with a new exclusive plant health agent. This key differential gives crops a better start leading to increased yield potential.

DISEASE Disease-fighting Protection

Acceleron includes an exclusive fungicide combination featuring *pyraclostrobin* and *metalaxyl* which offer excellent control of major seed-borne and soil-borne diseases including *Pythium*, *Fusarium*, *Phytophthora* and *Rhizoctonia*.

INSECT Insect Control

Acceleron utilizes *imidacloprid* to reduce early season damage to soybeans caused by insect pests including aphids and bean leaf beetles.

Damping off by *Pythium*

Fusarium root rot

Phytophthora damping off

Rhizoctonia root rot

Straight Facts About Acceleron™ Seed Treatment System

- Uniquely developed to complement Genuity™ Roundup Ready 2 Yield® soybeans
- Complete system offers enhanced plant health, disease protection and key insect pest control
- Developed through rigorous biological testing and evaluation programs
- Contains exclusive active ingredients
 - *Pyraclostrobin* that delivers enhanced performance on key soybean diseases
 - Plant health component for a better start, further increasing yield potential

Advanced Benefits

- Creates higher on-farm profit potential
- Improves system performance from planting through harvest
- Delivers exceptional convenience in a single system

The Future of Acceleron

Look for continued advancements in the Acceleron™ Seed Treatment System that help maximize seed and trait performance potential.

COMPLETE CROPPING SYSTEM

Acceleron™ Soybean Seed Treatment System is Designed to Complement Elite Germplasm and Genuity™ Roundup Ready 2 Yield® Soybeans for Maximum Performance Potential Beginning at Planting.
