

DAHLMAN[®] SOYBEANS

6014XN

1.4RM

6014XN height is medium with a very clean look and excellent standability that will emerge quickly in cooler soils. 6014XN has very high yield potential and tends to fit best west because of weaker IDC tolerance and a watch out for SDS. Shows very good northern movement into southern ND.

Management Tips

- Best in high yield environments
- Strong western yield break outs
- Good northern movement
- Rps 1c gene for Phytophthora Root Rot
