DAHLMAN® CORN

R90-261VT2PRIB

VT DoublePRO® RIB COMPLETE® ACCELERON®

90 Day RM

R90-261VT2PRIB has outstanding emergence and early plant vigor, good ear flex and adapts to a wide range of plant populations. Excellent response to fungicide application. R90-261VT2PRIB has a very solid overall disease package with very good Goss's Wilt, and NCLB tolerance. Tar spot tolerance is below average.

Management Tips

- Excels in high management
- Can push north of adapted RM zone
- Plant medium to med-high populations
- Harvest timing– normal to late

Bayer is a member of Excellence Through Stewardship® (ETS). *Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all applicable regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

B.t. products *may not yet be registered in all states. Check with your seed brand representative for the registration status in your state.*

Refuge seed may not always contain the DroughtGard® trait. ***IMPORTANT IRM INFORMATION:*** *Certain products are sold as RIB Complete® corn blend products, and do not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. Products sold without refuge in the bag (non-RIB Complete) require the planting of a structured refuge.* ***See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.***

Roundup Ready® 2 Technology *contains genes that confer tolerance to glyphosate. Plants that are not tolerant to glyphosate may be damaged or killed if exposed to those herbicides. Insect control technology provided by* ***Vip3A*** *is utilized under license from Syngenta Crop Protection AG.
